### Entering VTS area, reporting on intentions

DESCRIPTION	Motor vessel Codfish contacts VTS station when entering VTS area to inform on intentions
PARTICIPANTS	Vessel Traffic Services Operator, Officer of the watch
PROMPTS	OOW The OOW contacts VTS when entering VTS area to inform from SW, and they are underway to pilot station, and pilot is confirmed at a certain time. The vessel will have to wait for pilot and asks for instructions how to do that best; slowing down to arrive on time or getting there as soon as possible and waiting at the station.
	VTSO The VTSO gives the information needed; the vessel must slow down to arrive close to the time confirmed, and once at the station, proceed inwards.
