

Traffic information

DESCRIPTION	VTS contacts the vessel Dentex to inquire about their intentions	
PARTICIPANTS	Vessel Traffic Service operator, Officer on the bridge	
PROMPTS	VTS	The VTS operator contacts the vessel as they are returning north, which was not according to their previously communicated intention. He/she wants to know what they intend to do.
	Vessel	The officer replies to the call by the VTS operator. He/she explains that their drifting to north was caused by bad weather. When the weather improves, they will continue towards their port of destination.
	VTS	After the explanation by the officer on the vessel, the VTS operator wants to know how long they are planning to go north.
	Vessel	They are planning to go north for three hours. After that, depending on the weather, they plan to return south and continue towards their port of destination. They believe that the weather will improve around 4 a.m.
	VTS	He/she wants the vessel to call back in case of any changes in their plans. They have to report back to channel 10.
	Vessel	They acknowledge.
